FOR A CUP OF POUR OVER**

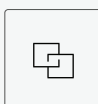

Wireless

3 in 1

Minimal Design

Portable

HIGH-PRECISION BURR

Grind coffee beans fast and smoothly

E&B Stainless Steel
Coated TitaniumE&B Stainless Steel
(Espresso & Brew)

STEP 1 Grind coffee beans

STEP 2 Pour hot water

STEP 3 Wait for 2 minutes to extract
automatically by the dripper**SMART EXPERIENCE OF
AUTO-SWING TECHNOLOGY**

If beans or anything hard get stuck
between burrs, it will rotate forth
and back for 3 times to avoid getting
stuck
and protect the motor and burrs

**Product Parameters**

Name:	123 GO
Height:	296 mm
Battery:	3.7 V 800 mAh x 2
Dripper:	225 ml max.
Voltage:	7.4 V/DC
Material:	PCTG, ABS, PP, Glass, Stainless Steel
Capacity:	15 g
Diameter:	86 mm
Weight:	840 g
Glass:	max 400 ml
Power:	20 W

GRINDER GO

A PORTABLE ELECTRIC COFFEE GRINDER

A SIMPLE AND SMALL PROFESSIONAL ELECTRIC GRINDER

TIMEMORE standard **Quality assurance**

PROFESSIONAL HIGH CONSISTENT GRINDING

Summarize our years of grinder design and production experience High-precision body. Double bearing to fix the shaft high concentric Structure for more consistent grinding

INNOVATIVE STRUCTURE FOR DIRECT AND CONVENIENT OPERATION

You can add coffee beans directly inside instead of removing the top whole part
Max Capacity 60g

HIGH-PRECISION BURR

Grind coffee beans fast and smoothly

E&B Stainless Steel
Coated Titanium

E&B Stainless Steel
(Espresso & Brew)

BIG CAPACITY POWER BATTERY FOR LONGER USAGE

Two 800 mAh lithium Power Battery with TYPE-C charging 30 times per grinding 15g coffee beans with full charge. It only takes 2 to 3 hour to charge

CONTAINER CAN BE USED FOR COFFEE OR OTHER FOOD

SMART EXPERIENCE OF AUTO-SWING TECHNOLOGY

If beans or anything hard get stuck between burrs, it will rotate forth and back for 3 times to avoid getting stuck and protect the motor and burrs

Product Parameters

Name: Grinder Go
Height: 220 mm
Battery: 3.7 V 9800 mAh x 2
Weight: 660 g
Voltage: 7.4 V/DC
Material: PCTH, ABS, PP, Glass, Stainless Steel
Moter: DC7.4V, DC motor carbon-rush
Empty carrying capacity: 80±10% RPM
Capacity: 60 g
Diameter: 86 mm
Power: 20 W

DESIGN
AWARD
2021

GOOD DESIGN
AWARD 2020

IF DESIGN AWARD 2021 GOOD DESIGN AWARD 2020

The Chestnut grinder, awarded the Reddot Design, has been a great success since its launch in 2017. As our experience and technical capabilities grow, we have now the possibility of creating a new version of the Chestnut with greatly improved functionality and features. We call it Chestnut X.

FOLDABLE HANDLE

Recommended by coffee master.
Continue original design
of Grinder Nano.

High Precision of Unibody Metal Design

A whole piece of Aluminum alloy cut by CNC
With error of 0.03mm
Get the highest concentricity
Square to Square thread alignment
Stainless steel bearings are rust-resistant

Genuine Leather for Chestnut X
(Accessories)

HARDER AND DURABLE SUS440 STAINLESS STEEL

High hardness Sus440 high carbon stainless steel

Hardness up to 58.5 - 60.5 HRC

Wear-resistant, rust-resistant

PATENTED S2C BURRS

With R&D's long-term efforts,
we adjust burrs with parameter modeling
according to particle size distribution data,
World first S2C (spike to cut)
patent to achieve "Spike first, cut later"

This makes it possible for precise adjustments,
exactly what you want and even the ability to fine
tune on a smaller dial. There are 24 clicks and you
can adjust each click another 5 secondary clicks.
24 multiplied by 5 gives a total of 120 clicks.
Enough precision for even the most meticulous
coffee enthusiast.

G1 SERIES

ORIGINAL DESIGN FOR EXCELLENT EXPERIENCE

Easy to get the best grinding experience

with damping design on the lid, adjuster, bean canister...

CHESTNUT G1

Manual coffee grinder

reddot design award
winner 2017

G1 coffee grinder combine round mechanism with a square outer contour create a unique design.

Precise processing and walnut wood ensure a pleasant feel and comfortable handling.

G1 coffee grinder is TIMEMORE best seller high end item

PRECISE STRUCTURE DETAILS

The design is based on the professional grinding requirements. Combine the metal and Wood to make beautifully crafted works in aesthetics

PATENTED POINT TO POINT COARSENESS SCALE

The steel ball damping structures make sure the adjustment point to point. It allows the precise grinding adjustment.

BLACK MIRROR SCALE 2

BLACK MIRROR 2 COFFEE WEIGHING PANEL

Simultaneous measurement of the "water injection amount" and "extraction amount", the "flow rate" of water injection can be seen directly Sharing brewing data with smart APP.

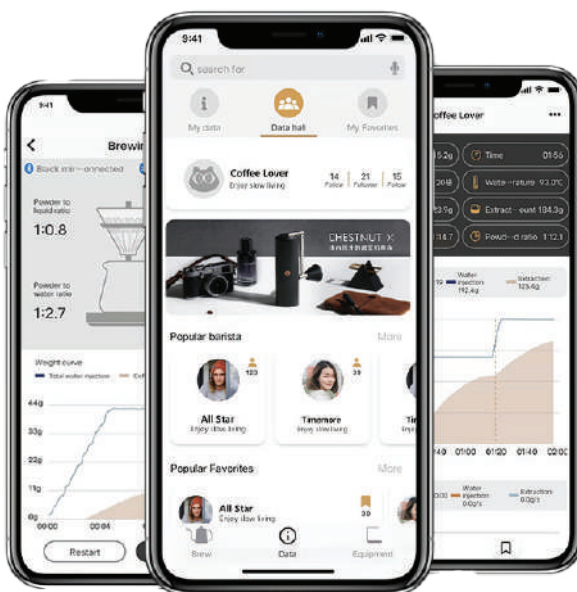

"BLACK" TECHNOLOGY OF POUR OVER COFFEE

New upgrade with complete data control

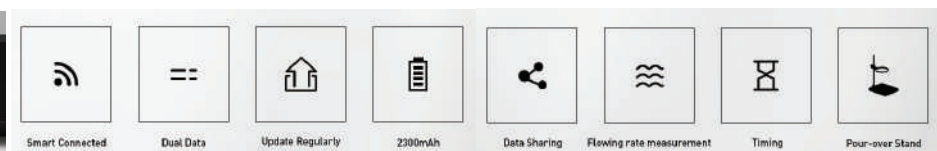

SMART INTERCONNECTION FOR IMMEDIATE DATA CONTROL

This product can be connect with a mobilephone via bluetooth, to use the smart software of Android/Apple for data display,synchronization, collection/sharing, regular update and exchange.

Physical ON/OFF button

TYPE-C

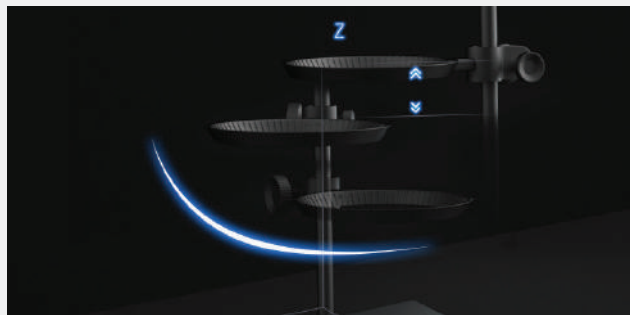

ORIGINAL DUALSENSE DUAL-CORE WEIGHT SENSOR

Two sensors of Black Mirror 1 are integrated into one, which simplifies the complex double-scale structure and improves stability.

This has won a utility model patent.

LIFTING & ROTARY STAND

The delicate clamp is locked by a wear-resistant POM part and can be smoothly rotated right and left. After the nuts are unscrewed, the stand can be adjusted vertically, without scratching its metal surface.

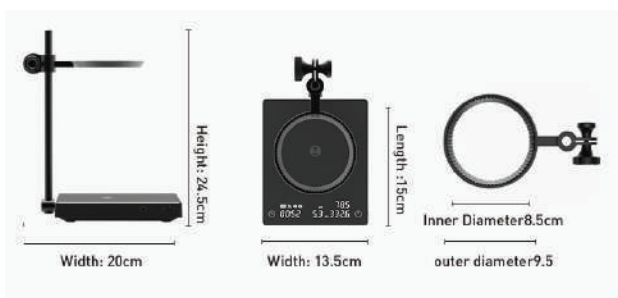

UPGRADED BATTERY LIFE

2300 mAh high-capacity lithium battery, continuously working for more than 24 hours

Product Parameters

Name:	TIMEMORE Black Mirror 2 Coffee Weighing Panel
Measurement:	Water injection, extraction amount, flow rate
Support:	Bluetooth & APP
Power:	2300 mAh
Weight:	605 g
Loading:	Dripper Holder: Max 1 kg Weighing Panel: Max 2 kg / Min 0.5 g
Content:	Weighing Panel, Bracket, Dripper Holder, Silicone Pad, Charge Cable, User's Manual (Warranty Card), Certification
Remark:	Pour over stand should be installed by user, please refer to the manual for details.
